

# THE GUIDE TO **DELEGATE** PREPARATION

## United Nations Commission on Human Rights

Safeguarding civilians in  
conflict zones from flesh  
exploitation, with  
emphasis on ISIS's sex  
slaves

## MEET THE DAIS

### Chairperson

Hi, I am Shaan Rathod, your chair. I have been MUN-ing for quite some time now and this is my second chairing experience! I love debating and eating (a bit too much). My other passions lie in football ( playing, watching, talking, everything!) and other sports as well. I am a very excitable person, although I get a bit subdued in large crowds. I aim to have a fun and a rich MUNing experience. Best of luck

### Vice-Chairperson

Hey, I am Avit Mehta. This is my first experience vice-chairing and I hope I am able to do justice to all of you and your research. I have been to a number of MUNs and I believe MUNning has affected a major part of my personality. I love playing basketball and watching anime. Sketching and playing music are some of my myriad hobbies. I look forward to having a productive committee session and have a lot of fun just as Shaan aforementioned.

# INTRODUCTION TO THE AGENDA

## SAFEGUARDING CIVILIANS IN CONFLICT ZONES FROM FLESH EXPLOITATION, WITH EMPHASIS ON ISIS'S SEX SLAVES

A conflict zone, sometimes referred to as a war zone, is defined as “a designated area within which rights of neutrals are not respected by a belligerent nation in time of war”

(To avoid any ambiguity in the perception of the agenda) The phrase ‘flesh exploitation’ means any act that **commodifies** a human being. Some examples are human trafficking and evidently, sex slaves trading. Even though the agenda asks you to specially emphasize on the ‘ISIS’s Sex slaves’, other such current violations in other regions must not be overlooked and thus, should be researched upon.

The purpose of this committee is to ensure that Human Rights are maintained all over the globe and hence, the purpose of this agenda is to come up with solutions to terminate any ‘flesh exploitation’ currently plaguing humanity. The committee will be primarily focused upon any such acts regarding the ISIS’s Sex slaves, but slight detours regarding the cause and effect of these Human Rights violations will also be permitted to be discussed in the committee. The different ways of looking at the agenda will be discussed in further parts of this document so that your research is more detailed and wholesome.

# QUESTIONS THAT A RESOLUTION MUST ANSWER

A RESOLUTIONS MUST ANSWER ALL THESE QUESTIONS TO BE DISCUSSED IN COMMITTEE.  
THIS WILL MAKE SURE THAT RESOLUTIONS ARE COMPREHENSIVE, THE DEBATE IS  
STRUCTURED AND PURPOSEFUL AND IT WILL FORCE THE DELEGATES TO CRITICALLY EXAMINE  
ALL ASPECTS OF THE AGENDA

- How can flesh exploitation in conflict zones be defined explicitly?
- How do members states aim to protect their citizens from flesh exploitations?
- How will member states ensure that their own armies are exploiting civilians in conflict zones?
- How will the member states curb flesh exploitation carried out by terrorist organisations?

- What action should be taken if breaches in protocol to curb flesh exploitation of civilians in conflict zones were to occur?
- How will the international community help victims of sexual exploitation in conflict zones?
- How does 'Responsibility to protect' apply in protecting people from flesh exploitation on conflict zones?
- To what extent does the responsibility to combat civilian exploitation in conflict zones lie with the international community and to what extent are the countries of the conflict zone responsible?
- What happens to member states or governing bodies who refuse to comply or adopt their responsibility to protect civilians in conflict zones?

## SUGGESTIONS FOR FURTHER RESEARCH

No matter how lengthy the research is, it is never going to be enough

Keeping this in mind we expect that delegates undertake extensive research. Debating is a skill, and the depth of your research unprecedentedly impacts what you debate upon. On similar lines, a problem is fuelled by many factors at its roots; we expect you to look at the 'roots' of the problem (flesh exploitation) we are addressing in this committee and identify the factors that give rise to and fuel this problem.

### Points to remember while researching

- The Executive board will only accept reports from official government sites, United Nations' reports and Reuters' reports.
- Please refer to International Humanitarian Law (as we are dealing with Conflict Zones and under such zones, a special law is enacted to insure safety of the civilians un-involved in the violence)
- It is advisable for the delegates to read the charter of the United Nations and the Universal Declaration of Human Rights (UDHR) to augment their debate and which will make for a better committee experience.
